

Z213.720

M8

INDUSTRIAL LOGISTIC

Zallys M8 is a pedestrian electric trolley designed to transport tubes and rods long up to 6 m (19,68 ft).

M8 can load up to 3.000 kg (6.613 lbs) and thanks to the front wheel drive, it is extremely easy to handle even in confined spaces, allowing the operator to approach the production line with ease.

M8 is equipped by default with acid batteries 240Ah that guarantee the use of the vehicle for at least two work shifts.
